

► **M6 - Remote Collaboration in Virtual Teams - Meeting No. 2**
SoSe2017 – Team „White “

[04.04.2017] page 1 of 2

Date:	Time from	until:	place:	Meeting-No.:
Tuesday, 04.04.2017	18:00	19:00	Skype	2
Present:	Scribe:	Faciliator:	Missing:	
Everyone	Bernardo	Junaid	None	

TOPs:	Who does what?	(till) when?	done?
<p>Discussion about our findings regarding the usage of Twitter API and FB API</p> <ul style="list-style-type: none"> - The colleagues from Germany have found an implementation of code for collecting the tweets <ul style="list-style-type: none"> - Also an API for tweet sentimental analysis, described in the presentation. - The Romanian team has presented a web tool for gathering information from FB. <ul style="list-style-type: none"> - However, the tool seemed to be unpractical and the collected content is poor. <ul style="list-style-type: none"> - For using it, it is necessary to provide a FB ID and the tool will return the public information about this ID (posts, likes...). So, we would need a list containing FB ids for inserting into it. <p>Agreement: using FB for collecting posts is unfeasible</p>			yes
<p>New theme for the project</p> <ul style="list-style-type: none"> - We discussed (promoted by Bogdan), in the following, the possibility to choose other theme for the project which only Twitter would be necessary. <ul style="list-style-type: none"> - It was mentioned a current topic which a game called Blue Whale was influencing people to suicide - One of the suggestions was to use Twitter to find possible suicides (not necessarily influenced by the game) <p>Agreement:</p> <ul style="list-style-type: none"> - The conclusion about the suggestion was it could be too complicated to label these messages <ul style="list-style-type: none"> - Requires knowledge and research in topics we don't know (e.g. Psychology) 			yes
<p>New approach</p> <ul style="list-style-type: none"> - It was said we could try to maintain the previous approach <ul style="list-style-type: none"> - To get a topic (e.g. Brexit) and compare its sentimental analysis in 2 different social networks <ul style="list-style-type: none"> - investigate the reasons that lead to this difference - Diana has found a web tool called Keyhole which you can

track a topic in different social networks - The tool is paid but it has a 3-day trial - During the trial, it works with Twitter and Instagram - Sentimental analysis is embedded to this tool - Different information is provided: - Demographic information - Related topics - Most influencing users Agreement: to understand better the tool			
TO Dos for the next meeting			
- To understand Keyhole	Everyone		
- To come up with a topic (hashtag) to be used as theme for collecting messages	Everyone		
- To provide the template for the paper	Bernardo
