2017-03-31T19:57:46Z **benjamin**: Hi all, interesting facebook app... in order to get the information of a profile, we need to be friends or to be allowed to see the content of the profile right?

2017-04-01T12:57:31Z **bernardo_pereira**: <@U4SNUDGMS> is it possible with this app consume the api automatically or do you have always to access this webpage to get the information?
2017-04-01T13:00:57Z **bernardo_pereira**: Also, it seems that you need to know a profile for getting its information. So, it means if we want to gather a big number of different messages from different people, we need a list of users to inserted in this app. Isn't it?
2017-04-01T13:01:15Z **bernardo_pereira**: It seems not practical at a first glance

2017-04-26T23:06:01Z **juni**: Yes i guess removing url worked
2017-04-28T13:24:31Z **bernardo_pereira**: These results are much more interesting <@U4SNUDGMS> :smile:
2017-04-28T13:26:55Z **bernardo_pereira**: Now the challenge will be discuss why twitter is more positive than youtube
2017-04-28T13:28:45Z **lupu60**: Hi all
2017-04-28T13:29:11Z **lupu60**: i will not join the meeting today

2017-04-28T13:30:17Z **benjamin**: oh ok alright
2017-04-28T13:30:35Z **bernardo_pereira**: Ok, man! Any consideration would like to make or comment?
2017-04-28T13:33:04Z **benjamin**: Regarding the discussion maybe we can have a better look at the different user bases of these two different social platforms like gender for example. Here are some interesting links: links

2017-04-28T13:35:39Z **bernardo_pereira**: I'll read it right now. By the way, we have to overcome Bogdan's absence since he'd be the scriber today
2017-04-28T13:40:11Z **bernardo_pereira**: Youtube has more men than women and Twitter is the opposite. Do you think this is correlated with the fact Youtube got more negative comments than twitter?
2017-04-28T13:40:41Z **paul-modran**: Sure. We can turn this into a sexist thing :))
2017-04-28T13:40:42Z **bernardo_pereira**: I can't prove it with numbers, but I feel women tend to be less negative/hateful
2017-04-28T13:41:51Z **bernardo_pereira**: Anyway, I liked the news <@U4S3THCBB>
2017-04-28T13:57:11Z **bernardo_pereira**: I'll be 5 min late
2017-04-28T14:01:02Z **benjamin**: Ok we will start 5 min later then and btw some possible topics to discuss for today were posted by the assistance of the professor in the wiggio: The tasks for today are: - get feedback on assignments from last meeting - look for ways to further improve your data extraction and/or analysis - look for ways to further improve your paper - decide what everybody will do until next meeting - reflect on your remote collaboration regarding each individual roles, responsibilities, contribution: what works well, were are areas for improvement?
2017-04-28T16:58:55Z **benjamin**: <@U4TNKSGCE> Regarding your doubts about the language restriction in the Youtube API, I have mixed it up... we also have a small amount of comments, which not in English... I cannot find any filter for that in the API... and regarding the location of a comment's location, I have read that this is not possible to get. The criteria for selecting the videos is in our case the relevance.
2017-05-03T19:23:53Z **bernardo_pereira**: <@U4S3THCBB> Thanks man
2017-05-03T19:24:36Z **bernardo_pereira**: Hey everyone. Just as reminder to those who are writing: don't forget to reference your sources :wink:
2017-05-04T09:04:39Z **bernardo_pereira**: And the website for the sentiment analyzer (<http://sentiment.vivenk.com|sentiment.vivenk.com>) is offline :disappointed:
2017-05-04T09:05:19Z **benjamin**: Mhh yes i think it is down till yesterday
2017-05-04T09:05:58Z **bernardo_pereira**: wrong link: <http://sentiment.vivekn.com|sentiment.vivekn.com>
2017-05-04T09:06:20Z **bernardo_pereira**: Really? Ah, I think I can handle the method section without the website
2017-05-04T09:07:04Z **bernardo_pereira**: The Result JSON has the fields: comment, sentiment and confidence?
2017-05-04T09:08:14Z **benjamin**: Mhh maybe you could try the the wayback website to check if you can access the website
2017-05-04T09:09:33Z **bernardo_pereira**: I've tried
2017-05-04T09:09:43Z **bernardo_pereira**: And trying to call the api as well
2017-05-04T09:09:46Z **bernardo_pereira**: no luck
2017-05-04T09:09:54Z **bernardo_pereira**: I'll check his github
2017-05-04T09:13:50Z **bernardo_pereira**: Btw, <@U4S3THCBB> , how many videos did we get?
2017-05-04T09:16:01Z **benjamin**: We have 50 the max possible value the api allows us to extract
2017-05-04T09:17:38Z **bernardo_pereira**: Cool. And do we know how many comments from each video we fetched?
2017-05-04T09:19:26Z **benjamin**: Max 100 comments per video
